

 **BALENCIAGA**
SHIPYARD

OUR HISTORY

Founded in 1921 on the banks of the Urola River, the journey of **BALENCIAGA** began by building wooden fishing vessels. Since then we have been characterized by adapting to the needs of the market, thus diversifying both the order book and our building experience.

During all these years the slipways of **BALENCIAGA** have witnessed the launching of at least 370 vessels.

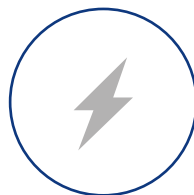

Today in **BALENCIAGA** we are committed to continue investing in the improvement of our facilities and systems, and strive to become a world reference within Shipyards and Shipbuilding.

WHATS MAKES US DIFFERENT

MISSION & VISION

In **BALENCIAGA** we are permanently seeking and implementing technological improvements. Currently the yard boasts the most advanced production systems and automation is applied wherever possible to offer the superior reliability and quality demanded by the world market, while meeting our commitment to delivery dates.

VALUES

The experience accumulated in over 90 years in shipbuilding allows us to have a valuable data base and inherent understanding of the end product and the market place. If a client has not yet found the design he is looking for, we approach one of numerous design outfits to help them find it.

QSHE

BALENCIAGA has maintained in force an integrated management system for Quality, Environment and workplace Risk Prevention since 2007, based on the International standards of ISO 9001, ISO 14001, and OSHAS 18001, respectively.

BUSINESS AREAS

FISHING & AQUACULTURE

Active in the Fishing & Aquaculture Market since 1980s, **BALENCIAGA** is supporting the requirements and needs that this innovative and growing market is demanding nowadays.

OFFSHORE

With many references in the Offshore Market, **BALENCIAGA** is more than prepared to face the most sophisticated projects both for the Wind Offshore and Oil & Gas industry.

TUG & SALVAGE

With more than 30 Vessels built for the Tug & Salvage Market, **BALENCIAGA** has acquired the knowledge to be your partner in upcoming Projects.
